[Portfolio Website](#)

I am a **responsible** and **visionary** fresh graduate with a bachelor's degree in Telecommunication Engineering and experience as a laboratory assistant in **Data Analytics** and **Data Science**. As Vice President of my student association and former head of advanced education for a nature enthusiasts' club, I have developed strong **leadership**, **teamwork**, and **communication** skills. My active involvement in campus and community activities has broadened my insights, enhanced my **problem-solving** abilities, and fostered a **deep curiosity** for learning.

EXPERIENCE

Himpunan Mahasiswa Teknik Telekomunikasi

2023 – 2025

Vice President (October 2024 – Present)

- Supervise and coordinate activities of the Ministry of Science and Student Development and the Ministry of External Affairs
- Supervised five departments and ensured smooth operations among 60 members.
- Facilitated collaboration between ministries and departments to drive impactful projects.
- Monitor progress and performance of ministry initiatives and projects
- Maintain readiness to lead the association in emergency situations or when the President is unavailable

Senior Staff of Public Relations Department (April 2023 – September 2024)

- Coordinator of Monthly Talk show event with the Alumni of Telecommunication Engineering to sharing experience or knowledge about them.
- Leading a "Telco Thanksgiving" Event to appreciate external organization for keep supporting our event and programs.

Junior Staff of Public Relations Department (February – March 2023)

- Moderating one of the Public Relation events, "Telcotalks," on Live Instagram for HMTT, I ensure smooth operations and engaging discussions.

Cybersecurity, Multimedia and Big Data Laboratory

2022 – 2025

Head of Public Relation Division (August 2024 - Present)

- Establishing media partnerships with organizations outside the campus.
- Acting as a liaison between the internal laboratory and external parties.
- Led branding initiatives to enhance the lab's public image and visibility.

Research Assistant of Big Data Division (December 2022 - Present)

- Created an unsupervised machine learning model for water quality analysis using KMeans clustering (scikit-learn) and determined the optimal number of clusters using the Elbow Method with Yellowbrick's KelbowVisualizer
- Collected review data on film series using web scraping techniques, including Selenium for dynamic website interaction and BeautifulSoup for HTML parsing, from IMDb.
- Conducted sentiment analysis on IMDb reviews using NLTK and scikit-learn to identify audience sentiment trends, patterns, and make sentiment predictions.
- Participating on Kaggle competition 'Spaceship Titanic'.
- Participating on JOINTS DATA COMPETITION on 17th April 2023.
- Participating on COMPFEST Data Analytics Dash on 3 September 2023

Perhimpunan Penjelajah Alam Jamadagni

2021 – 2024

Head of DIKLAT 47 at DP 2023 (February 2023 - April 2024)

- Creating a plan for the development of young members.
- Ensuring the attainment of values instilled in young members.
- As the highest authority, making the decision to appoint young members as full members.

Head of Secretariat and Logistic Division at DP 2022-2023 (June 2022- January 2023)

- Recording all the equipment owned by the Organization.
- Managing all borrowed equipment and equipment borrowings.
- Organizing a monthly office cleaning activity in secretariat

Field Coordinator of Mt.Sindoro Expedition DIKLAT 43 (September 2021)

- Keeping the event on track from the preparation.
- Making decisions from any problem on the field.
- Ensure the safety of all young staff 43 Jamadagni.

EDUCATION

Telkom University, Bandung

2021 - 2025

Major in Telecommunication Engineering (GPA: 3.44)

SMAN 3 Bandung

2018-2021

PROJECT

- **[Innovillage 2023 “GoatGuard”](#)**

Create an IoT-based device integrated with machine learning to early detect diseases in goats. We aimed to monitor the goat's temperature, heart rate, and oxygen saturation, and then analyze the possible diseases that might occur if any of these parameters are abnormal.

- **[Mylpond: A Water Quality Monitoring System for Catfish Ponds](#)**

Mylpond is a water quality monitoring system designed for catfish ponds, measuring key parameters such as temperature, turbidity, and pH. The system integrates machine learning to analyze the impact of water conditions on catfish health and growth, enabling better pond management and productivity.

CERTIFICATIONS

- [Intro to Data Science \(Cisco\)](#)
- [Belajar Dasar Visualisasi Data \(Dicoding Academy\)](#)
- [Intro to Machine Learning \(Kaggle\)](#)
- [Belajar Machine Learning untuk Pemula \(Dicoding Academy\)](#)
- [Memulai Pemrograman dengan Python \(Dicoding Academy\)](#)
- [Networking Basics \(Cisco\)](#)
- [Data Analytics Essentials \(Cisco\)](#)
- [Microsoft Excel from Beginner to Advanced \(Udemy\)](#)
- [Intro to Data Analytics \(RevoU\)](#)
- [Belajar Dasar Structured Query Language SQL \(Dicoding Academy\)](#)
- [Intermediate SQL \(Sololearn\)](#)
- [Red Hat System Administration II \(Red Hat\)](#)
- [Latihan Keterampilan Manajemen Mahasiswa - Tingkat Menengah \(Kemdikbudristek\)](#)
- [Data Scientist Associate \(DataCamp\)](#)

SKILLS & CAPABILITIES

Personal Skills:

- Project Management
- Leadership
- Decision Thinking
- Time management
- Teamworking
- Fast learner
- Critical Thinking
- Communication
- IT Architecture
- Team Management
- Internet of Things
- Data Science
- Machine Learning
- Data Visualization
- Data Analytics
- Basic Networking
- Public Relations
- Data Analytics
- Cloud Fundamentals

Language Skills:

- Bahasa Indonesia: Native Speaker
- English: Intermediate

Software Skills:

- Microsoft Office
- Microsoft Excel
- Programming (C, Python, SQL)
- Cisco Packet Tracer
- Tableau
- Microsoft Azure
- Visual Studio Code
- Github
- Arduino IDE
